

NATIONAL CLIMATE SECURITY TOUR

CLIMATE SECURITY

NCST events focus on the nexus of climate security and national security, and pay special attention to state and region specific threats, hazards, and risks.

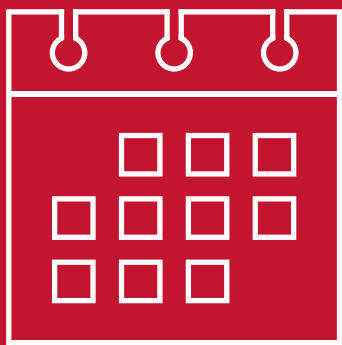

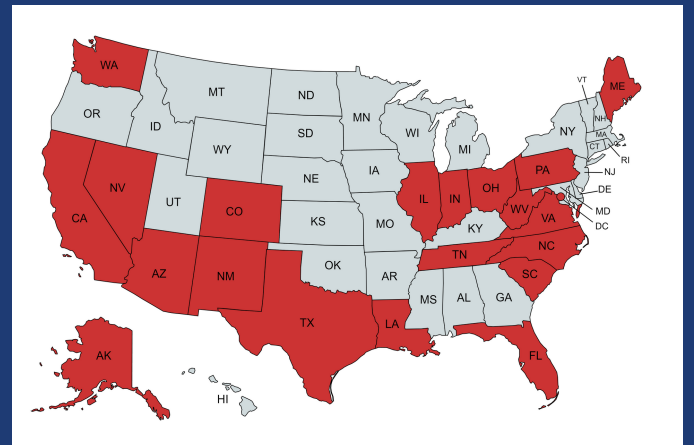

CONSENSUS FOR AMERICAN SECURITY

ASP leverages retired flag officers and its network of influential national security thought leaders to participate in NCST events.

21 STATES

Since 2014, NCST has partnered with 30 different colleges, universities, and military installations to tailor more than 40 events in 21 states.

American Security Project

American Security Project

The American Security Project (ASP) is a nonpartisan organization created to educate the American public and the world about the changing nature of national security in the 21st Century.

Our Mission:

To communicate our vision for security in the 21st century by developing and sharing new ideas and critical analyses on the most important national security issues of our time;

To forge a bipartisan consensus on a new national security strategy that will restore America's leadership and ensure our security;

To raise the American public's understanding of critical national security issues through direct engagement and dialogue.
